---

### SUMMARY

---

B.Sc. Computer Science graduate (2025) focused on Java Full Stack Development, with hands-on experience building secured, layered web applications using Spring Boot, Spring Security, JWT, and REST APIs. Hands-on across the full stack with React for frontend development and MongoDB / MongoDB Atlas for persistence, alongside solid experience building Oracle-backed applications with Spring Data JPA and Hibernate. Seeking an entry-level Java Developer / Java Full Stack Developer role.

### TECHNICAL SKILLS

---

**Languages:** Java, C, C++, JavaScript

**Frontend:** React, HTML5, CSS3

**Backend:** Spring Boot, Spring Framework, Spring MVC, REST APIs, Servlets, JSP, JDBC

**Security:** Spring Security, JWT, Authentication, Authorization

**Database:** MongoDB, MongoDB Atlas, Oracle Database

**Persistence:** Spring Data JPA, Hibernate, JPA

**Concepts:** OOP, MVC Architecture, Layered Architecture, CRUD, Dependency Injection, Bean Validation, Exception Handling, Collections

**Tools:** Git, GitHub, Maven, IntelliJ IDEA, Eclipse, VS Code, Postman

### PROJECT EXPERIENCE

---

#### Instagram Full-Stack Application

*React · Spring Boot · Spring Security · JWT · REST APIs · MongoDB Atlas · Java · JavaScript · HTML/CSS · Git/GitHub · Postman*

- Built a full-stack social media application using React and Spring Boot REST APIs, integrating frontend components with backend services through RESTful API communication.
- Implemented JWT-based authentication and registration with Spring Security, securing protected REST endpoints and controlling authenticated access.
- Modeled and persisted application data in MongoDB Atlas, integrating a cloud-hosted NoSQL database with the Spring Boot backend.
- Debugged and tested REST API integration between the React frontend and Spring Boot backend using Postman, deploying the frontend live on Vercel.

#### Course Registration System

*Java · Spring Boot · Spring MVC · Spring Data JPA · Hibernate · Spring Security · Oracle Database · HTML/CSS/JavaScript · Maven · Lombok*

- Built a layered full-stack application with Spring Boot and Spring MVC, designing REST APIs across Controller → Service → Repository layers with Oracle Database persistence.
- Modeled an Oracle Database schema with Available Course and Enrolled Course entities, implementing CRUD operations through JpaRepository and Hibernate.
- Secured REST endpoints with Spring Security and applied Bean Validation and centralized exception handling across the service layer.

#### Quiz Management System

*Java · JSP · Servlets · JDBC · Oracle Database*

- Developed a dynamic Java web application using JSP and Servlets, enabling user registration, login, and category-based online quizzes.
- Built JDBC-driven Oracle Database integration to store quiz questions and options, and evaluate answers in real time.
- Implemented session management for secure, personalized quiz attempts and automated score generation.

### EDUCATION

---

**B.Sc. Computer Science — Government Arts & Science College, Kuthalam, Annamalai University**

*Graduated: 2025*
